Annual Training

Thanks to a combination of group sessions and personalized support, we help your team develop new skills.

- o **Internalize** knowledge of sustainable materials relevant to your projects
- o Develop new **prescription habits**
- o Enrich your **materials library** with sustainable materials
- o Give your teams the tools they need for getting **clients on-board**

What makes us unique

- o A **transversal approach** in which we support every phase of the project, thanks to our hands-on knowledge of the design and construction phases.
- o **Continuous monitoring**, with over 900 products already analyzed for both technical and financial aspects.
- o Our **central procurement department** guarantees the possibility of supplying materials at competitive prices, thanks to our **direct supply chain**.

In practice

8

tickets to our **workshops**, to be allocated as you wish within your team

4

personal consultations with our experts, resulting in a tailor-made selection of materials for all your projects (4 x 1.5h)

4

meetings in the **Materatek**, with all the samples, for you and your customers (4 x 1h)

1

access to the **Digital Materatek** for your entire team, with all the technical and practical data for materials relevant to your projects

Rate 3000€/ year (excl. VAT)
